- \* BEV Technology – a patented process resulting in very clean burning of bioethanol fuel vapours.
- \*\* Commerce Technology – an advanced technology which prevents fuel leakage due to absorbent ceramic fibres.
- \*\*\* The burning time depends on the amount of fuel poured in.

## WORLDWIDE EXPERIENCE

- Over 15 years on the market
- Appreciation in over 80 countries
- Numerous projects on every continent
- Top private and commercial designs (Marriott, Hilton, Kempinski and many more)

## PATENTED BEV TECHNOLOGY

- No direct contact between the fuel and the flame
- No smell, no smoke, no ash
- Cleanest combustion process
- Natural, golden flames
- Longer burning time

# WHY to choose us?

## CUSTOMIZED MODELS – FIRE LINE AUTOMATIC

- Bespoke models for endless line of fire
- Customizable length and color (RAL palette)
- No hard connection and chimney for unlimited arrangement possibilities
- Easy installation to implement the fireplace at every stage of the project
- Project Department for advice and assistance

## INTELLIGENT FEATURE AND ADVANCED SAFETY

- TÜV, certified to UL and ULC standards
- Multiple safety sensors: temperature sensor, tilt sensor, child lock, CO<sub>2</sub> sensor, overfill sensor
- Smart device control
- Smart Home system compatible
- Remote control
- Complex projects – we installed the first bioethanol fireplace on a yacht
- Advanced safety confirmed by numerous commercial and public projects
- Advanced microprocessor overseeing the operation of the fireplace
- Intuitive control panel
